**Retail:  
\$50  
ISBN  
1422437280**

This 2007 Edition features more complete coverage of the statutes that guide and govern the operation of townships and road districts in Illinois. Enhancing the statutes are case annotations that summarize important court opinions. Included with each book is a bound-in CD-ROM version that offers robust searching capabilities and the option to cut-and-paste material into your word processing documents.
