Check your COVID-19 vaccination record on new immunization portal

SPRINGFIELD – The Illinois Department of Public Health (IDPH) is launching a new immunization portal, Vax Verify, that will allow Illinois residents 18 years and older to check their COVID-19 vaccination record. Vax Verify can be accessed at <https://idphportal.illinois.gov> (<https://idphportal.illinois.gov/>).

“As more businesses, events, organizations, and others require proof of vaccination, Illinois residents will be able to confirm using Vax Verify that they have been vaccinated for COVID-19,” said IDPH Director Dr. Ngozi Ezike. “With the current surge in cases, more people are making the decision to get a COVID-19 vaccine and this new tool will aid residents in confirming their vaccination where needed.”

Illinois State Fair concert goers with tickets for the grandstand track area (also known as Standing Room Only) are required to provide a print or digital copy of vaccination or a negative COVID-19 test within the previous 72 hours. Ticket holders can register in Vax Verify to check their immunization record for documentation of COVID-19 vaccination.

More and more companies, such as United, Google, Netflix, Morgan Stanley, Saks Fifth Avenue, Ascension Health (<https://www.ascension.org/News/News-Articles/2021/07/27/15/59/Ascension-to-Require-COVID-19-Vaccination>), and Lyft, are instituting vaccine requirements for at least some of their employees.

The verification system follows best practices to protect confidential health information. In order to download proof of vaccination, residents will go through a brief, one-time identity verification process to gain access to their immunization history. The State of Illinois utilizes Experian® as its identity
