

## MINUTES - BOARD of TOWN TRUSTEES

---

### HIGHWAY COMMISSIONER'S:

Highway Commissioner Barton informed the board that he is working to resolve an issue on North 15<sup>th</sup> Road, commonly known as Marilla Park Road. The road runs parallel to the creek on the north side of the road for a section and has experienced erosion over time. A section was reinforced with large concrete blocks a number of years ago and has held up very well over time. Now, additional sections on either side of that reinforced area are starting to show similar erosion activity. Highway Commissioner Barton is working a solution similar to what was done in the past. He has been in contact with the County Engineer and the City of Streator's Engineer, Jeremy Palm. He is considering several options for obtaining and placing the cement blocks and clean fill dirt for the project. He is hoping to address the issue this spring and will keep the board informed.
